

i would love to see XM radio offer more to thier listsners.. do not let the big dogs of the traditional broadcasting take over. It is the american way to think of new bussiness and if over 1,000,000 people want it then so be it.. i hope u do not give in to the big broadcasters way. i am over in iraq defending our freedoms and ideas.. so let the american people choose and give new bussiness the opportunity to expand their bussiness.
